## IMPORTANT.

Customers are requested to state mode of conveyance, whether by freight or express. When no instructions are given we forward to the best of our judgment, but in no case do we assume any responsibility after goods are shipped.

**OUR GUARANTEE.** While we take the greatest care in packing and labeling to avoid mistakes, and are ready to replace any stock that proves untrue, or refund money paid for same, it is agreed between the purchaser and ourselves that we will not be held liable for more than the amount paid for the goods.

Where particular varieties are ordered, age size, etc., it should be stated whether we are at liberty to substitute or not; when not stated we take it for granted we are at liberty to substitute, except in orders for fruit trees for commercial orchards. If the selection of varieties is left entirely to us, we will endeavor to send the best varieties only.

**TERMS.** Cash or satisfactory reference before shipping. No orders sent C. O. D., unless one-half cash accompanies the order. We do not advise orders sent C. O. D., as it is too costly.

**SEASON.** About October 1 to April 10.

No charge for packing; boxes at cost.

Sales will be made subject to stock being unsold when order is received.

See back part of list for fruits.

**NOTICE**

We have no agents. Prefer to sell direct to customers. A saving to them of 30 per cent. Further, when you deal direct with the Nursery, you are sure to get varieties true to label. An agent works for the commission. We are for your good will and a reasonable profit on sales. Many agents fill their orders and ship personally. When their Nursery is out of varieties ordered, what happens? Isn't it natural for an agent to try and save the commission, part of which has been paid him?
